Important TIPS:

- You must watch the *entire* video to be able to access the quiz.
- You can pause a video and return to it later. *However*, if you try to return to it on a different device or browser, you may need to start over to gain access to the quiz.
- If the video contains knowledge checks, you *must answer them to move forward* in the video.
- If you have multiple tabs open, and are not watching the video, you *may not* be able to access the quiz.
- If you stop and start, use the play arrow to start and *not the scroll bar* as you may skip ahead and be unable to access the quiz.
- To stay compliant, always complete **one course at a time** and keep your login credentials secure.

If you have any technical difficulties, please let us know the type of device and browser you are using, the title of the course, and details about your issue so we can troubleshoot the problem.
